

FUEL OIL FILTERS and REPLACEMENT CARTRIDGES

Your Filter's Seal of Assurance when using Bio-Fuel Blends!

BIOGasket™ the FKM Oil Filter Head Gasket

The BIOGasket™ is a Fluoroelastomer (FKM) synthetic rubber material. FKM was originally developed by DuPont Performance Elastomers L.L.C. marketed and commonly known as Viton®, a registered trademark of Dupont.

BIOGasket™ a FKM Gasket, provides extraordinary levels of resistance to chemicals, concentrated acids, inorganic acids, organic acids, fuel hydrocarbons, animal and vegetable oils, mineral oils and solvents. The BIOGasket® retains excellent physical and mechanical properties such as adhesion to metal, compression set and tensile strength. The thermal property range is -30F to 450F.

The BIOGasket™ is designed to resist the aggressive properties found with bio-fuel blends that cause rubber seals to leak and swell. The BIOGasket™ is a highly durable class M, 100% type 1 fluoroelastomer base as defined under ASTM1418. The BIOGasket™ is the oil heating industry choice for peace of mind assurance you can count on.

1A-25B and 2A-700B

Compatible with Bio-Fuel Blends up thru B100!

- Standard with **BIOGasket**
- Durable Epoxy Coated Galvanized Steel Filter Bowl Inside & Out
- **4EVERLoc** Bottom Bolt Design

1A-30 and 2A-710

Wool Felt Filter Element Cartridge
Standard with 1A-25B & 2A-700B
