QUALITY PLEATS

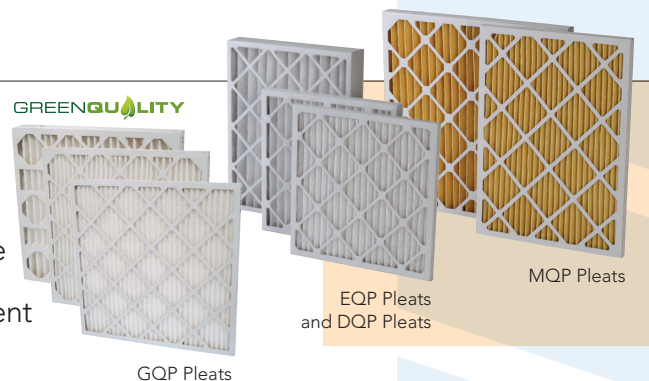

LONGER LIFE, LOWER COSTS

Higher Filtration Efficiency

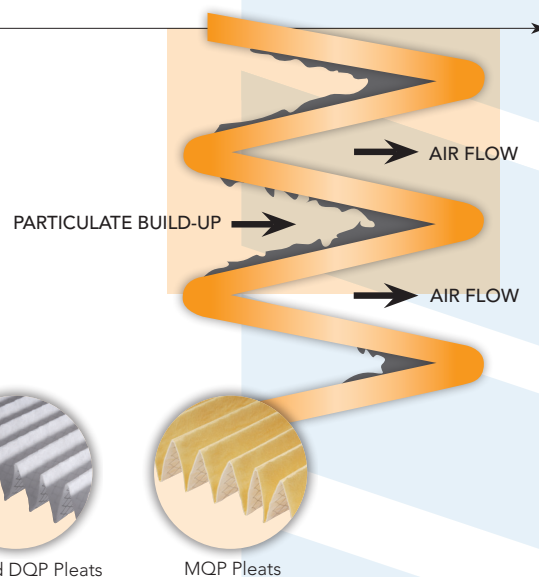

QUALITY PLEATED FILTERS

QualityPleats extended surface pleated filters from Quality Filters outperform ordinary furnace filters with medium efficiency which are designed for lower pressure drop, and long service life which reduces HVAC equipment maintenance and energy costs.

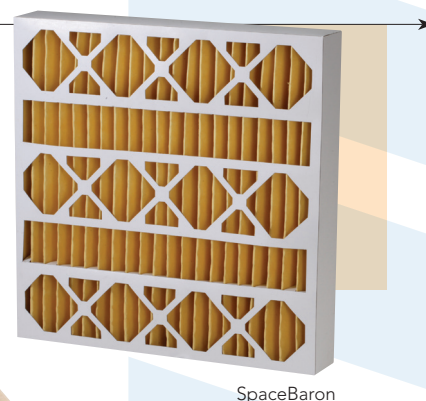

FEATURES

- Standard and high capacity pleated filters.
- Consists of 100% synthetic electrostatically charged thermally bonded fibers with no chemical binders.
- Captures more dust than standard pads or panel type filters creating a healthier environment.
- Protects HVAC equipment from the effects of dirty air and reduces costly building maintenance.
- Can last up to four times the life of standard pads or panel type filters and extends life of more expensive secondary filters.
- **MERV 8, MERV 11 and MERV 13** rated per ASHRAE test standard 52.2.

SPACEBARON Ducted Air Filters

- Residential air cleaner filter designed to fit existing ducted air filter housings.
- Pre-assembled for easy installation.
- 5" depth and closed pleats minimize pressure drop and extend filter life six months to one year.
