

Trio Portable 3-in-1 Air Purification System

PROTECT YOUR FAMILY'S HEALTH WITH AIR THAT IS FRESH, CLEAN & PURE.™

The Trio Portable includes multi-stage filtration and PRO-Cell™ Technology (<http://www.fieldcontrols.com/pro-cell-technology>) odor and VOC reduction. The Trio Portable is ideal for homes and offices without forced air ductwork or for extra protection in any room.

Trio-1000P Portable air purifier features

1. Four stages of filtration (/filebin/images/product-images/Trio-PORTABLE-1000P-infographic-web.jpg), including HEPA, trap dust, dander, pollen and other airborne particles.

2. High intensity UVC germicidal lamp (/filebin/images/product-images/Trio-PORTABLE-1000P-infographic-web.jpg) neutralizes and reduces airborne mold, bacteria and viruses.
3. PRO-Cell™ catalytic grid (<http://www.fieldcontrols.com/pro-cell-technology>) transforms odors and VOCs into fresh, breathable air.
4. Advanced electronics monitor and communicate system operation.
5. VOC sensor automatically increases the fan speed when harmful gases are present.

Applications

- Home or Office
- Healthcare environments
- Print Shops
- Salons
- Fabric & Carpet Stores

How it Works

CLEAN

The Trio includes four stages of filtration to ensure your air is clean. The pre-filter collects particles as small as 5.0 microns*, while two layers of charcoal activated filters remove odors and smoke. The final stage of filtration is a hospital grade HEPA filter that traps tiny microscopic particles as small as 0.3 microns such as dust, dander, and pollen.

PURE
